

Name _____

Atmospheric Circulation and Global Wind Pattern on our Spinning Earth

Complete the global wind patterns on the blank earth map provided. Make sure to include the following:

- Atmospheric Circulation Cells: **direction** of movement, **temperature** and **humidity**
- **Rising** and **falling** of air at the appropriate latitudes
- Wind movement at the earth's surface: **direction** and **names**
- Special names of the 'winds' (or lack thereof) at the **equator**, **30°N** and **30°S**
